POSITIVE PROFIT ALERT

This announcement is made by Boyaa Interactive International Limited (the “**Company**”, together with its subsidiaries, the “**Group**”) pursuant to Rule 13.09 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “**Listing Rules**”) and the Inside Information Provisions (as defined in the Listing Rules) under Part XIVA of the Securities and Futures Ordinance (Chapter 571 of the Laws of Hong Kong).

The board of directors (the “**Board**”) of the Company wishes to inform the shareholders of the Company (the “**Shareholders**”) and potential investors that, based on a preliminary assessment by the management of the Company on the unaudited consolidated management accounts of the Group and the information currently available to the Board, the revenue of the Group for the year ended 31 December 2023 is expected to increase by approximately 2% to 8% as compared to that for the year ended 31 December 2022 (the year ended 31 December 2022: approximately RMB375.3 million), which is primarily due to (i) the Group’s holding of certain online operation activities; and (ii) the continuous optimisation of its gaming products and gameplay so that the Group’s revenue has maintained a steady increase.

The Group’s profit attributable to owners of the Company for the year ended 31 December 2023 is expected to increase by approximately 75% to 85% as compared to that for the year ended 31 December 2022 (the year ended 31 December 2022: approximately RMB64.2 million), which is mainly due to, among other things, (i) the increase in revenue of the Group for the year ended 31 December 2023 as compared to the same period in 2022; (ii) the impact of non-operating one-off factors such as the reduction in the decrease in fair value of financial assets such as equity investment partnerships of the Group for the year ended 31 December 2023 as compared to the same period in 2022, and the impairment of the frozen

sum of the Group recorded for the year ended 31 December 2022 (whereas no such impairment had been recorded in 2023); and (iii) the increase in interest income of the Group for the year ended 31 December 2023 as compared to the same period in 2022.

Excluding the impact of non-operating one-off factors such as changes in the fair value of financial assets including equity investment partnerships and the impairment of the frozen sum of the Group recorded for the year ended 31 December 2022, the Group's profit attributable to owners of the Company for the year ended 31 December 2023 is expected to increase by approximately 40% to 50% as compared to the profit attributable to owners of the Company that would have been recorded for the same period in 2022, which is mainly due to, among other things, the expected increase in revenue and interest income of the Group for the year ended 31 December 2023 as compared to the same period in 2022.

The information contained in this announcement is based only on the preliminary assessment by the management of the Company with reference to the information currently available, including the unaudited consolidated management accounts of the Group for the year ended 31 December 2023, and is not based on any information or figures which have been audited, confirmed or reviewed by the Company's independent auditors and would require further discussion with the audit committee of the Company. As at the date of this announcement, the consolidated results of the Group for the year ended 31 December 2023 have not yet been finalised.

The annual results announcement of the Group for the year ended 31 December 2023 is expected to be published by the end of February 2024.

Shareholders and potential investors of the Company are advised to exercise caution when dealing in the securities of the Company.
